

# How to book an appointment

- Access Sirius Care via your **General Practice website**.
- Enter your **username** and **password**.  
You will reach the Sirius Care landing page.

- Click on the **'Appointment'** icon.  
This will take you to the Appointments page.
- To make an appointment click on **'Book Appointments'**.  
Make sure you know your availability before booking.

Each General Practice may have different rules around scheduling, such as how many days in advance you can schedule, and how much of a medical provider's schedule is accessible via online booking.

If you cannot find a time that suits, please call your General Practice as other appointments may be available.
